

**STAUB MANUFACTURING SOLUTIONS**  
**Now Hiring: Fabrication Technician – Finishing & Assembly**  
**(4 Day Workweek, 2nd Shift w/ 15% Night Bonus)**

***Ready for a Better Shop?***

You show up, you work hard, and you take pride in what you build. But something's missing — maybe it's the pay, the culture, or the feeling that nobody notices.

**We notice.**

At Staub Manufacturing Solutions, we built our company around people like you — skilled, reliable, and ready to grow somewhere that actually invests in them.

---

***What You'll Earn***

- \$20–\$25/hr to start, based on attitude and proven reliability
- 15% night shift bonus on top of base pay
- Quarterly profit sharing and end-of-year bonus
- Matching retirement plan
- Medical, dental & vision — we cover 80%, starting at 30 days
- Paid vacation and paid holidays
- Real advancement: the more you learn, the more you earn

---

***The Role***

As a Fabrication Technician, you'll start in Secondary Operations (finishing, grinding, tapping, assembly, spot welding, PEM insertion, etc.) in our clean, modern shop. We will train you on our finishing equipment, insertion machines, machining, and more.

The goal isn't to fill a seat. It's to build you into a highly skilled, versatile member of the team — not just another body on the floor.

We only hire people we plan to promote.

---

***Who We're Looking For***

- A stable work history
- Strong attention to detail and pride in doing things right
- Able to work safely, stay organized, and stay focused with minimal supervision
- Looking for a long-term home, not just another paycheck

No specific degree or certification required — we train the right people.

---

***Why Staub?***

Clean shop. Minimal drama. Leaders who know your name. A 4-day workweek that gives you your life back. We built this place to be somewhere people want to retire from — and our team will tell you we mean it.

---

***How to Apply***

Send your resume and a short note telling us:

1. Where you're currently working
2. Why you're open to making a change

We move quickly for the right people.

These are direct hire positions — not through an agency.

Must pass drug test (including marijuana).
